

Develop an Academic Plan with Your Counselor

What is an academic plan, you ask? An academic plan is a way to map out short and long term goals to meet an academic goal. Essentially, you will plan out specific courses you will be taking each semester and you will see how long it will take you to complete your associate's degree or specific program. Creating a plan will help you set goals, evaluate your academic progress, and adjust your plan as needed. Schedule a meeting with your counselor today!

What is a Learning Community?

A learning community is a comprehensive program to help you succeed at UCC. As a participant, you have counselors who will help you with academic and career decisions, peer mentors to help you navigate through your first semester, professors who are friendly and approachable, tutors to help you with your classes, and librarians who will assist you with your research. Throughout the semester you will meet with them to help you get the most out of your UCC experience. Plus, since you have the same classmates in two classes, you have more of an opportunity to meet and make new friends!
